Dear Oxley Woods Residents

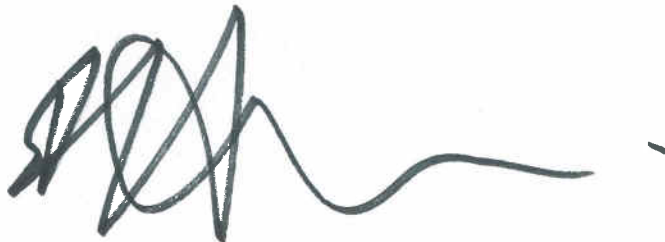

RE: OXLEY PARK EAST APPLICATION

On viewing the submitted application document, it appears that the proposed houses in the final phase of the Oxley Woods development differ little from the proposals Taylor Wimpey showed us almost a year ago, with the exception that they appear more bulky. Consequently, our response remains the same as that which we expressed in March last year (see letter to Oxley Woods Residents 09.03.11). In particular, the proposals continue to imitate key gestures of the existing houses without an understanding of their raison d'être. We believe that, consequently, this denigrates the architectural integrity of those properties already built.

We are extremely proud of what has been achieved at Oxley Woods and are gratified by your desire to protect the design ethos of your neighbourhood. We are pleased that you enjoy and are happy with your homes and we share your frustrations about the quality presented in the current application.

We too remain very attached to Oxley Woods and if Taylor Wimpey were to ask us, we would be happy to work with them to develop alternative designs for this site.

Yours faithfully

A handwritten signature in dark ink, appearing to be 'Ivan Harbour', written in a cursive, somewhat stylized script.

IVAN HARBOUR
